

**Ready for the new sailing challenge?  
Tired of putting together a full crew  
for every race?**

**Looking for more kinship with those  
you race against?**

**Then try the fastest growing aspect  
of offshore racing – shorthanding.**

**Singlehanded racing has been  
around for years – trans-Atlantic,  
around-the-world, and now – more  
and more—coastal. Doublehanded  
racing has more recently been  
attracting offshore sailors who want  
the challenge but who also want  
the companionship of racing with  
a friend, spouse, or child.**

**Take a look at three shorthanded  
races that may interest you. Each  
is a major event limited to single-  
handed and/or doublehanded entries  
offering varying degrees of  
complexity appealing to first timers  
and long-time veterans alike.**

**Sailed under PHRF ratings and  
with fleets mostly comprised of  
cruiser/racers, each of these events  
is designed to attract the serious  
offshore sailor.**

**Adventure is calling — seize your  
opportunity today!**

The biennial Offshore 160, held in the off-year from the Bermuda ONE-TWO, is a 160-mile qualifier for the ONE-TWO. This low-keyed, bare-bones event is designed to potentially get new skippers' singlehanded qualifying passage out of the way in the off-year, and to provide past competitors with a long-distance racing "fix."
